## ABOUT ME

---

I'm a Full-Stack Software Engineer with 5+ years of experience building and maintaining production web and mobile applications using React, React Native, TypeScript, and Node.js. Proven track record leading frontend teams, optimizing Core Web Vitals and application performance, and delivering end-to-end features.

## EXPERIENCE

---

### Full-Stack Engineer

*Plannery*

*Remote - USA*

*2024-present*

- Developed a React Native app for transaction tracking and spending-limit configuration improving interaction smoothness by eliminating frame drops in high-frequency slider updates (60fps stable).
- Built and maintained React web application features through which clients apply for financial checkups and loan products, owning both frontend and Node.js backend across the full request lifecycle.
- Leveraged Redis for pub/sub messaging and job queuing, decoupling async workflows and improving platform responsiveness.

### Frontend Lead

*Patagonia Chic*

*Remote - Argentina*

*2023-2024*

- Led development and maintenance of a Next.js booking platform for Patagonia tours, owning the full frontend codebase, architecture decisions, and Vercel deployment pipeline.
- Improved Core Web Vitals performance scores from 45-55 to 85+ through code-splitting, lazy loading, and image optimization across different pages.
- Introduced Lighthouse CI, Reassure, and Playwright pipelines, increasing automated coverage of critical booking flows and preventing performance regressions before production release.

### Full-Stack Developer

*Evaluados*

*Remote - Argentina*

*2021-2023*

- Delivered and maintained both web and mobile platforms using React, React Native, and TypeScript, contributing to NestJS backend services that powered end-to-end survey creation, distribution, and submission workflows used across teacher and student applications.
- Promoted to lead frontend initiatives across a team of 3 developers, coordinating architecture decisions and component standards.

### Full-Stack Developer

*Freelance*

*Remote - Argentina*

*2020-present*

- Built an offline-first React Native sales-order system used by field operators in low-connectivity environments, enabling uninterrupted order capture during network outages
- Implemented multi-tenant backend architecture supporting multiple client organizations from a single deployment instance.

## SKILLS

---

**Skills:** Typescript, Javascript, React, NextJs, React Native, Expo, NodeJs, NestJs, SQL, NoSQL, Docker, AWS

## EDUCATION

---

**Universidad Tecnológica Nacional, Argentina**

*Information Systems Engineer*

*2018-2023*
